

4. Scaun de baie cu spatar si sezut in forma de U Dr. Happy JL7961L

Part No.	Picture	Material	Quantity	Name
A		Fe	7	Washer φ 6
B		Fe	6	Bolt M6*35mm
C		Fe	1	Nut M6
D		Fe	1	Bolt M6*60mm
E		Fe	2	Spacer
F		PE	1	Seat

The diagram shows the assembly of the chair seat. Part A (washers) are placed on the legs of the seat. Part B (bolts) are used to secure the seat to the frame. Part C (nut) is used to secure the bolt. Part D (bolt) is used to secure the seat to the frame. Part E (spacer) is used to secure the seat to the frame. Part F (seat) is the main component being assembled.

The image shows the assembled chair seat, which is a U-shaped component with four legs. The seat is made of PE (polyethylene) and the legs are made of Fe (iron).
